Below a sampler of Myra Tulonen Smith other work, from left to right :
Sterling Silver Single Malt Scotch Cup

Sterling Silver Ceremonial Goblet

Sterling Silver Bowl and Stand

Left: Candlestick by Jackie Anderson.

The piece is Jackie's entry in Laura Brandon's upcoming exhibition "Illuminating" - a contemporary interpretation of a classical feminine shape, a vintage music stand. Deconstructed with curvilinear silver shapes flowing over five silver linear elements with vintage piano key ivory and ebony inlay. These elements reference music lines, string instruments, and piano.

The bottom of the piece references another feminine shape, a guitar, violin, cello. Scribed on the surface are over 70 names of Canadian Women composers, singers, songwriters, and musicians from the late 1800's to now.
